

BULOVA

INTRODUCING CURV—THE WORLD'S FIRST CURVED CHRONOGRAPH MOVEMENT

Bulova reimagines what a watch should be. CURV is the perfect synthesis of innovative thinking, expert craftsmanship and advanced technology—the hallmarks of Bulova's creativity since 1875.

- Sleek ergonomic design that contours to the wrist
- Slim-line case never before possible with a chronograph
- Exclusive high performance quartz technology with 262 kHz vibrational frequency for precise accuracy
- 5-hand chronograph function in striking series of dress and sport styles
- Sapphire glass
- New ladies' styles sparkle with diamonds
- Select men's styles with exhibition case backs/dials, titanium/stainless steel cases and leather or rubber straps
- Water resistant to 30 meters

SETTING THE TIME

- Pull the crown out to the first click position
- Turn the crown to set hour and minute hands
- After setting the time, push the crown back to normal position

OPERATING THE CURV CHRONOGRAPH

This 3-subdial chronograph can measure and display time up to 11 hours/59 minutes/59 seconds (with 2 beats per second).

The 6H second hand has two functions: 1) standard watch second hand, and 2) chronograph second hand.

- To get chronograph timing, push button **B**.
All chronograph hands will set to zero position.
- To start chronograph timing, push button **A**.
- To stop chronograph timing, push button **A** again.
- To reset chronograph timing, push button **B**.
All chronograph hands will return to zero position.

If chronograph stopwatch function is not used for 60 minutes, the 6H hand will return to function as a regular second hand.

READING THE CURV CHRONOGRAPH

For final chronograph time, read the times in order:

- 1** HOURS (up to 12 hours) at the 9 o'clock subdial
- 2** MINUTES (up to 60 minutes) at the 3 o'clock subdial
- 3** SECONDS at the 6 o'clock subdial for regular and chronograph time
